This session will focus on:

Focus: Mathematics Update: What have we learnt from the outcomes of the 2018 tests?

There will be further sessions in the Spring (27 February 2019) and Summer (4th June) and covering relevant up to the minute developments in mathematics and providing opportunity for delegates to share practice.

Janine Blinko works as a consultant both independently and with other experienced consultants. She has worked in primary mathematics for many years at many different levels including: subject leader; advisory teacher (ESG funding); deputy head teacher in a large primary school; assessment writer for the National Tests and NfER; senior lecturer, teaching post-graduate trainees, and GTP trainees; author of articles and curriculum materials; CPD provider for a range of LAs and organisations; researcher for QCDA and the NCETM; and a consultant for BEAM Education, Osiris and Smar+. Janine has a particular interest in Lesson Study as a highly effective form of CPD, and is actively involved in promoting children's and teachers' enjoyment and positive view of themselves as creative learners of mathematics and is convinced that all children (and teachers) can be successful and happy mathematicians.
